The whole range is in AISI 316 Polished Stainless Steel Surface Roughness of  $0.8\mu\text{m}$ . Additionally, PTFE and EPDM diaphragms are of new technology (Compound) with integrated piston.

## Ruby Innovative oil free air valve

The heart of the RubyShine pump is our innovative, new design air valve. In respect for New Era demands, to create and offer High Quality product, with high interest for the environment and its protection, the Air Valve of the RubyShine Diaphragm Pumps has been created to offer

- ✓ Oil free operation
- ✓ No need for maintenance
- ✓ Not affected by minor contamination of compressed air
- ✓ Significant energy saving
- ✓ Non freezing operation
- ✓ External environment operation
- ✓ No dead centre
- ✓ Long life
- ✓ Reliability

## Advance unified diaphragms featuring:

- ✓ Easy installation and maintenance
- ✓ Excellent service life
- ✓ Inventory cost reduction
- ✓ Improved performance
- ✓ Greater displacement per cycle
- ✓ No center hole, elimination of potential leak paths.
- ✓ There is no need for the main axis to be insured
- ✓ They can be screwed and unscrewed without the use of tools

## Advance Unified Diaphragm offers:

**The prominences decrease** the stretching of the PTFE during the regression and prevent it from cracking.

**Innovative conical shape** ideal for optimal performance and life, low pressure requirements for start-up, ideal suction

**Innovative diaphragm support side,** offers flexibility, long life and protects from cavitation

**Special internal plate** supports your diaphragm in every movement
